Declaration of consent to the collection and transfer of personal contact data in accordance with the Corona Protection Ordinance

One component of the hygiene and infection protection concept is the registration of people in order to be able to trace the chains of infection and personal contacts in the event that a person is infected with the corona virus. For this purpose, it is prescribed that we record the contact details of persons present with their consent in writing to enable tracing and, if necessary, forward them to the responsible authorities. (see § 2a Corona Protection Ordinance NRW of 07/07/20).
Accordingly, we ask for the following data and your consent to their processing. If you do not agree to the data processing, you cannot take part in the competition. With the signature you also confirm that you are absolutely symptom-free when entering the sports facility.
We ask for your understanding.

name	first name	address	phone number	arrival time	signature
